LFS 302A is a distance education course based on three weeks of travel and learning in Cuba. Here is what some students have said about the course:

"Things I learned on this trip are continuing to grow in depth as I continue my education."

"Cuba is a very special place to go and learn about sustainable agriculture. I just can't put it into words, how much there is to see and learn from."

"We got to go to places in Cuba that you could not go to as a tourist."
