

Real Voice for Choice
“Market Empowerment for Prairie Producers”

We support the Canadian Wheat Board (CWB) single desk marketing structure.

Value of CWB single desk marketing	\$297 to \$417 million
Tendering, railway and terminal agreements	\$38.1 million
Net interest earnings	\$66.2 million
Approach to managing delivery system	\$115 million
Terminal blending	\$7 to \$10 million
Farmer access to producer cars	\$6 million
Total	\$525 to \$645 million
	Annual benefit to prairie producers

The CWB won a 1997 legal challenge against the CPR for failing to provide farmers adequate rail service. The CWB received \$15 million compensation for damages. CN also reached a commercial settlement with the CWB. The compensation was never released publicly as a condition of the settlement.

Who will work for farmers in the future to ensure the benefits listed above are available to farmers?

Real Voice for Choice, a volunteer driven group, is supporting the campaign to save our right to a plebiscite on the question of dismantling the single desk marketing system. We need your support to help cover expenses. Funds will only be used for expenses such as advertising, stationary, postage, telephone and travel expenses.

We suggest a contribution of \$200 per farm business unit be submitted. However, we will accept any assistance if this level of support is not possible at this time.
